KEY-MASTER
Pushing the limits for your security

Key Management as a service

Dropbox from **KEY-MASTER** is an excellent solution for hotels, airbnb or car dealers. With **Dropbox**, you don't have to worry about customers not collecting keys outside office hours, or hiring staff to extend opening hours. **Dropbox** is self-service. The key is immediately available to the customer by entering the correct PIN, it is securely sealed and the key is automatically dropped from inside. An alarm sounds if an illegal operation is performed.

KEY-MASTER is the leading brand in intelligent key management systems. By working together with our customers, continuously improving our products and solutions, you can be sure of the correct identification and security of people, keys and assets.
